cooling

Smart Cooling. Ultimate Comfort.

COOLSOFT is an advanced cooling mattress fabric designed to deliver a refreshing sleep experience. Engineered with innovative textile technology, it provides a soft, breathable, and temperature-balanced surface that enhances comfort throughout the night.

Whether it's hot climates or long usage hours, COOLSOFT ensures a cool, dry, and relaxing feel — every time you lie down.

KEY FEATURES

- **Instant Cool Touch**
Experience a refreshing sensation the moment you touch the fabric.
- **Temperature Regulation**
Helps maintain an optimal sleep temperature by reducing heatbuildup.
- **Soft & Smooth Feel**
Ultra-soft texture that enhances comfort and luxury.
- **Breathable Structure**
Allows proper air circulation for a fresh and hygienic sleep environment.
- **Moisture Control**
Absorbs and releases moisture efficiently to keep the surface dry.

- Improves overall sleep comfort
- Ideal for hot and humid climates
- Long-lasting performance
- Suitable for premium mattress collections
- Enhances product value for brands
